Release-pool selection: CPA career tenure

Statistic	Years or coefficient (SE)	Observations or CPAs	Mixed firm-years
Release-pool member	4.961*** (0.242)	16,961	354
Pool-member mean tenure	13.020	1026	
Non-pool mean tenure	7.811	15935	

Notes: The release-pool member coefficient compares CPAs within the same audit firm and year; standard errors cluster by audit firm. Mean tenure and CPA counts are descriptive. This is a selection diagnostic, not an audit-outcome effect.
